On/Off Switch   Connect Button   Battery Cover

Figure 2: Back Layout

Installing the Batteries

1. Remove the battery cover from the back of the keyboard.
2. Insert the 2 AAA batteries. Make sure the batteries are properly installed as indicated by the image below.
3. Replace the battery cover.

Figure 3: Installing the Batteries

Pairing Keyboard

1. Turn on the Bluetooth source device's Bluetooth function.
2. Power on the Bluetooth keyboard.
3. Press the Bluetooth keyboard's connect button. The Pairing LED should be lit.
4. Launch the Bluetooth enabled device's Bluetooth program. Turn on the Add/ Search/Connect device process.

5. User's should see new device called **Bluetooth Wireless Keyboard**.

6. The connection process should provide a pass code for pairing. Enter the pass code from the keyboard and press Enter key. Wait while the keyboard is added to the system.

Function Key (Fn)

The function key (**Fn**) enables the typing of the function keys and the operation of the embedded numeric keypad. **Note**: The keys are colored blue.

Blue Apha/Numeric Keys

Hold down the **Fn** key while pressing the appropriate key - NumLock, F7, F8, F9, F10, F11, F12, Print, Pause, PgUp, PgDn.

Numeric Keypad

The numeric keypad works with the NumLock On.

Num Lock On

Hold down the **Fn** and press **NumLock** key. The blue characters of the numeric keypad will be enabled. The alpha characters are disabled. **Note**: To return to normal keyboard operation, hold down the **Fn** key and press **NumLock** key to turn off NumLock.

Figure 4: Embedded Numeric Keypad

Bios Setting

The *Bluetooth Wireless Keyboard's* space-saving design requires the dual alpha/numeric function of certain keys. Since the numeric keypad feature is controlled by the **Num Lock** key, an inconvenient situation will occur when using a computer that automatically enables the **Num Lock** key with each boot up. Refer to the following solutions:

1.　If your computer's BIOS setup utility has **Num Lock** option, set it to **OFF/Disabled**.
2.　If your computer's BIOS setup utility does not have a **Num Lock** option, press **Fn**+**NumLock** key to turnoff the numeric keypad after each boot up.

> **Note**: Please read your system's users manual for changing your BIOS setting.

Technical Support and Warranty

QUESTIONS? SIIG's **Online Support** has answers! Simply visit our web site at *www.siig.com* and click **Support**. Our online support database is updated daily with new drivers and solutions. Answers to your questions could be just a few clicks away. You can also submit questions online and a technical support analyst will promptly respond.

SIIG offers a 3-year manufacturer warranty with this product. This warranty covers the original purchaser and guarantees the product to be free of any defects in materials or workmanship for three (3) years from the date of purchase of the product.

SIIG will, at our discretion, repair or replace (with an identical product or product having similar features and functionality) the product if defective in materials or workmanship. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Please see our web site for more warranty details.

If you encounter any problems with this product, please follow the procedures below.

A) If it is within the store's return policy period, please return the product to the store where you purchased from.

B) If your purchase has passed the store's return policy period, please follow the steps below to have the product repaired or replaced.

Step 1: Submit your RMA request.

Go to **www.siig.com**, click **Support**, then **REQUEST A PRODUCT REPLACEMENT** to submit a request to <u>SIIG RMA</u> or fax a request to 510-657-5962. Your RMA request will be processed, if the product is determined to be defective, an RMA number will be issued.

Step 2: After obtaining an RMA number, ship the product.

*   Properly pack the product for shipping. All accessories that came with the original package must be included.
*   Clearly write your RMA number on the top of the returned package. SIIG will refuse to accept any shipping package, and will not be responsible for a product returned without an RMA number posted on the outside of the shipping carton.
*   You are responsible for the cost of shipping to SIIG. Ship the product to the following address:

    SIIG, Inc.
    6078 Stewart Avenue
    Fremont, CA 94538-3152, USA
    RMA #: _____

*   SIIG will ship the repaired or replaced product via Ground in the U.S. and International Economy outside of the U.S. at no cost to the customer.

About SIIG, Inc.

Founded in 1985, SIIG, Inc. is a leading manufacturer of IT connectivity solutions (including Serial ATA and Ultra ATA Controllers, FireWire, USB, and legacy I/O adapters) that bridge the connection between Desktop/Notebook systems and external peripherals. SIIG continues to grow by adding A/V and Digital Signage connectivity solutions to our extensive portfolio.

SIIG products offer comprehensive user manuals, many user-friendly features, and are backed by an extensive manufacturer warranty. High quality control standards are evident by the overall ease of installation and compatibility of our products, as well as one of the lowest defective return rates in the industry. SIIG products can be found in computer retail stores, mail order catalogs, through major distributors, system integrators, and VARs in the Americas and the UK, and through e-commerce sites.
